

## American Heart Association eBooks

# Resuscitation Library at your Fingertips

## Exclusive Access for RQI & HeartCode Complete Customers

Give your providers quick access to lifesaving information including algorithms and drug dosages from the *2020 Handbook of Emergency Cardiovascular Care*— right at their fingertips.

The American Heart Association Reference Library provides digital access to a full set of the newest AHA Guidelines and Provider Manual eBooks.

### Features of the AHA Reference Library

- Digital access to the *2020 Handbook of Emergency Cardiovascular Care* – access to lifesaving care information on the go
- Valuable crash cart tool in **mobile friendly format** – including access to the *ACLS and PALS Drug Reference Guide*
- New **Media Gallery** for easy access to algorithms and images
- View **AHA Provider Manual eBooks** without reentering the eLearning portion of the course

To save more lives, healthcare providers and first responders must be competent in delivering high-quality CPR. Our resuscitation training helps patient care teams acquire the skills and knowledge they need to be both coordinated and competent as they work together to improve outcomes for patients.

**2020**  
CPR & ECC
