

American
Heart
Association.

The American Heart Association is an accredited provider of the Accreditation Council for Pharmacy Education(ACPE). ACPE no longer supports providers issuing paper statements of credit to US licensed pharmacists and pharmacy technicians.

To obtain a credit certificate learners can log into their e-profile at nabp.net and print their entire transcript of CPE activity or select one CPE activity and print off the one statement of credit. Allow up to 60 days for the ACPE credit for this activity to be available in the learner's NABP e-profile.
