# 2020 AHA Science In-Service: Your Guide to the Guidelines

## Resuscitation Education at Your Fingertips

Learn the latest resuscitation science and key changes in the 2020 AHA Guidelines for CPR and ECC with the interactive, online course for healthcare providers.

Leading healthcare and EMS educators asked the AHA to provide a fast and convenient way to update healthcare professionals on the latest resuscitation science changes published in the *2020 AHA Guidelines Update for CPR and ECC*. The Science In-Service Course highlights science and guidelines recommendations that are most significant or those that will result in changes in resuscitation practice and protocols. This solution will allow healthcare institutions and emergency medical services to rapidly update their providers and offer the best patient care.

*Your institution may provide Science In-Service as a free offering within the RQI and HeartCode Complete programs. Please check with your institution first before pre-purchasing the Science In-Service.*

## Benefits to In-Service training

- New AHA resuscitation science **updates delivered online and available immediately** following the release of the 2020 Guidelines
- Standardizes care for all patients by educating healthcare providers on **new science in a fast and convenient way**
- Offers a **full overview of science changes** impacting basic, advanced, and pediatric life support
- Providers may claim **continuing education (CE) credit** upon completion
- Course **completion certificate** provided
- **Access anytime online**
